See next page

Mulder-Hardenberg has several specialties that can assist our food and beverages industry customers with their projects. For each of these specialties our product experts are glad to assist you with any project or question you might have:

- Human/Machine Interface
- Cable Management
- Labeling
- Monitoring & Control
- Power Supplies
- Connectors

In the past Mulder-Hardenberg has worked together with a lot of different customers in the food and beverages industry to help them with their challenges. See our related cases on www.mh-interfaces.com for some of the projects we've implemented for our customers.

Production terminals for Bilthoven Biologicals

The production terminals that were previously supplied to a vaccine production company where at the end of their performing life. MH created a solution that could meet up with modern day standards.

Stainless steel wire trays for food production lines

A machine-building company in the food industry needed a steady supply of high quality, stainless steel wire trays to minimize production downtime for their bread-baking production lines.

Industrial PC's: Reliability is crucial

GEA Grenco BV is market leader in several aspects of industrial refrigeration. The company can therefore boast on a variety of customers.
